

## Agenda for the Revenue Advisory Committee 9.26.2023

6:30pm start

1. Open meeting and introductions
2. Revenue Committee to explain existing rate structure including outside and inside rates to Laberge Representatives
3. Review proposed expenses for John Street tank project (See "Rossie Udated Opinion...." attached).
4. Laberge to discuss water rate methods and feedback from prior projects.
5. Revenue Committee to provide response to presentation on Laberge water rate methods.
6. Public comments

Don Rhodes has been provided some details of existing rates already including the report Liz Kormos provided to the committee earlier this year (attached for reference).

We will be using an audio recording once again to capture the meeting minutes. I would ask that everyone speaking this week identifies themselves when speaking.

Thank you everyone and thank you to Don for making himself available to us,
