Re: 103 East High Street

Dear Mr. Douglas,

We are in receipt of your application, and we are taking the following action. We are forwarding the application to the Historic District Commission for review. We are also forwarding the application to the Planning Board for Site Plan Review.

Upon completion of those reviews, the Building Department will do a complete plan review for construction. Further plan submissions and construction documents may be required prior to issuance of the building permit.

Thank you,

Dave LaFountain
