To: Dave Avenarius  
Re: 92 Milton Avenue

Dear Dave,

Attached please find the engineer's requirements for handicap accessibility for 92 Milton Avenue. Upon completion of this work, we will issue a building permit for the interior renovation. If this work cannot be completed in a timely fashion and the tenant is in need of a building permit prior to the completion of this work, we will require you to establish an escrow account with the Village Engineer, Mike Ruffinen.

If you have any further questions, please contact me.

Thank you,

Dave LaFountain  
Building Inspector
